STUDIO

Studio SPHAER crafts timeless objects where emotion meets vision, blending artisanal tradition with contemporary design for conscious living spaces.

SPHAER

FOUNDER

LENI PIËCH

7

sphaer

Leni Piëch is more than a designer. She is a storyteller weaving new worlds from the threads of imagination. Rooted in Vienna and shaped by her foundation at London's Central Saint Martins, her vision extends beyond objects — she designs perspectives, narratives, and connections.

Collaboration is the heartbeat of Studio SPHAER's holistic approach. For Piëch, creation is never solitary — it's a dialogue. In these moments where minds converge and disciplines intersect, innovation emerges. By embracing the friction between knowledge and understanding, Studio SPHAER creates designs that transcend time and trend, reflecting quality, precision, openness, and diversity.

At the heart of her philosophy lies »worlding« — a radical exploration of human and non-human realities. Piëch challenges hierarchies, deconstructs dominance and envisions spaces where mindfulness and care extend beyond the human realm. Every creation is an invitation to pause, to listen, and to embrace the intricate interconnections of existence.

Studio SPHAER is more than a design practice, it is a mindset. A space for radical creativity and intentional living. Piëch's work provokes thought, sparks dialogue, and inspires a vision of a more equitable and sustainable world.

COLLABORATION

The collaboration between Leni Piëch and Bade Erol exemplifies the transformative power of creative synergy. Rooted in their shared vision to redefine pendant lighting. Their journey began with a simple yet profound idea: to soften the often harsh quality of LED light by concealing it beneath warm, pigmented glass.

Their goal was to create lighting that does more than illuminates: it should bring a sense of comfort, warmth, and tranquility to the spaces it inhabits.

From this idea, the project evolved into a series of pendant lights designed to oversee a room with elegance and quiet authority. Inspired by Greek goddesses, the lights reflect both power and grace, hanging as gentle guardians that transform spaces with their timeless glow.

9

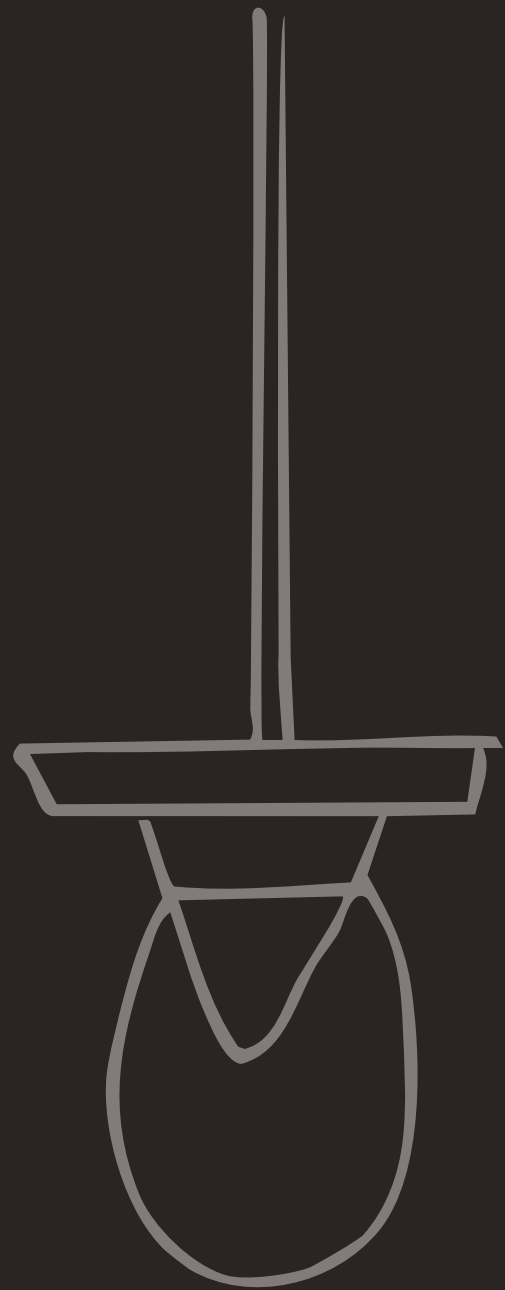

LENI PIËCH + BADE EROL

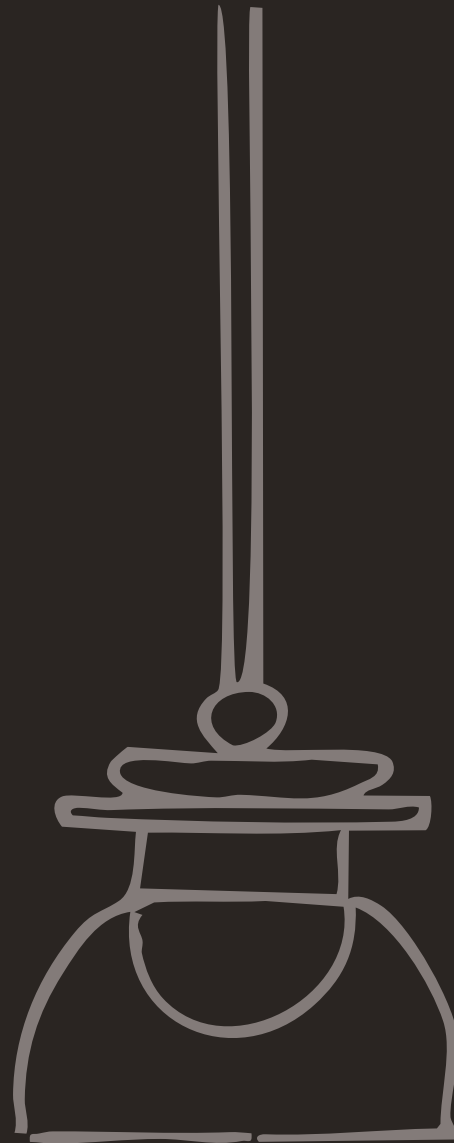

The collaboration unfolded during a unique and meaningful moment, as Piëch was expecting her daughter. This added a layer of intimacy and care to the process, reflecting the warmth and nurturing essence they sought to infuse into their designs. The result is lighting that feels alive with connection, offering a sense of calm and belonging to any space.

Combining Erol's expertise in lighting design and manufacturing with Piëch's artistic vision, attention to detail, and commitment to sustainable, premium materials, the project is a celebration of thoughtful craftsmanship. The resulting collection is both innovative and deeply human—a perfect balance of beauty, functionality, and emotional resonance.

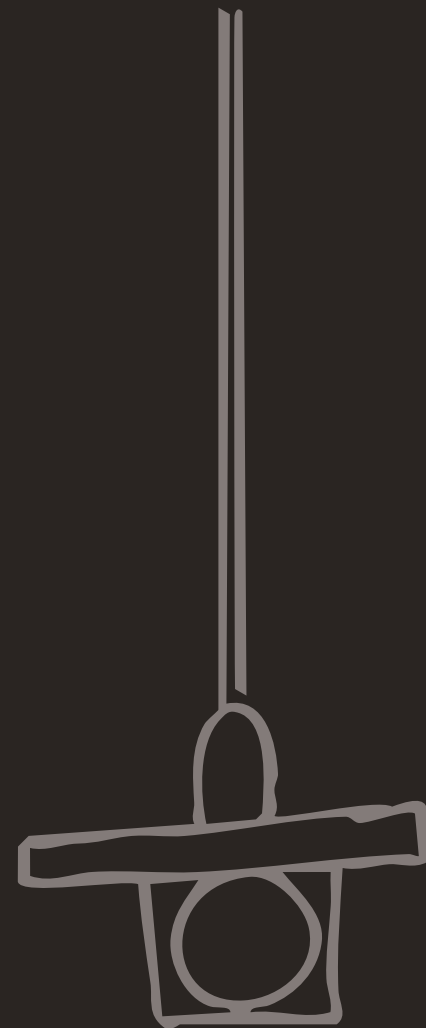

BIA

THEIA

EIRENE

The PYTHIA collection operates as an oracle, reflecting the future's luminance between layers of coloured and transparent glass. With their electrified auras, these three objects captivate their observers, enticing us into a world bent on unveiling its enigmas. Despite their lucidity, the designs of this collection possess neither beginning nor end. Within PYTHIA, the light has no desire to simply refract. Instead, it yearns to dance.

PYTHIA

BIA

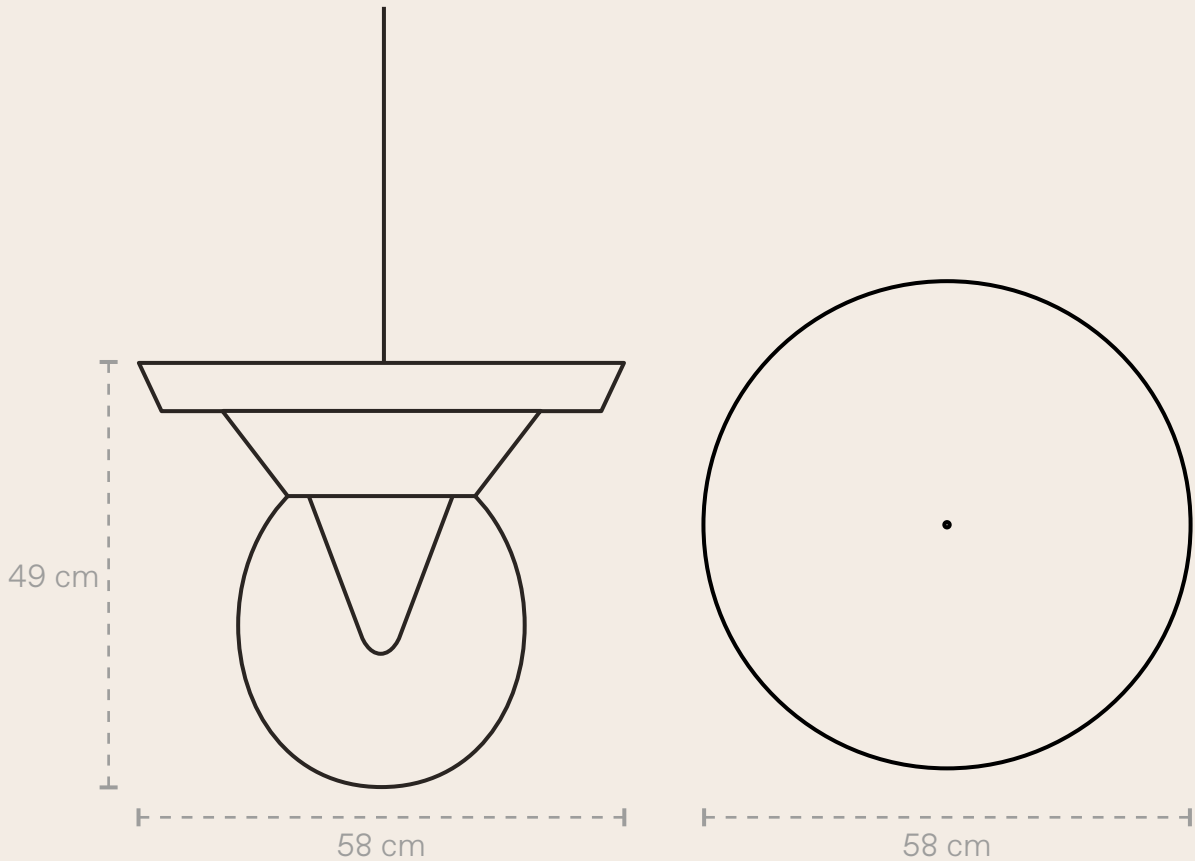

LENI PIËCH + BADE EROL

Bia exudes an unyielding presence. Within her flows a potent tranquillity — a formidable energy, the vigour of the cosmos itself. Bia is the goddess of power. Those who delve deeper recognise her aptitude to illuminate the path of brilliant triumph. For the true essence of Bia glistens in her bravery.

BIA

Bia embodies diverse facets of strength and might. This vigour is conveyed by the two robust elements of wood and ceramic that support and safeguard Bia from external menace. For her appearance, she opts for a subtle colour palette that further accentuates her potency. Bia is self-assured, aware of her capabilities, and her determination reverberates through her transparent glass form.

EIRENE

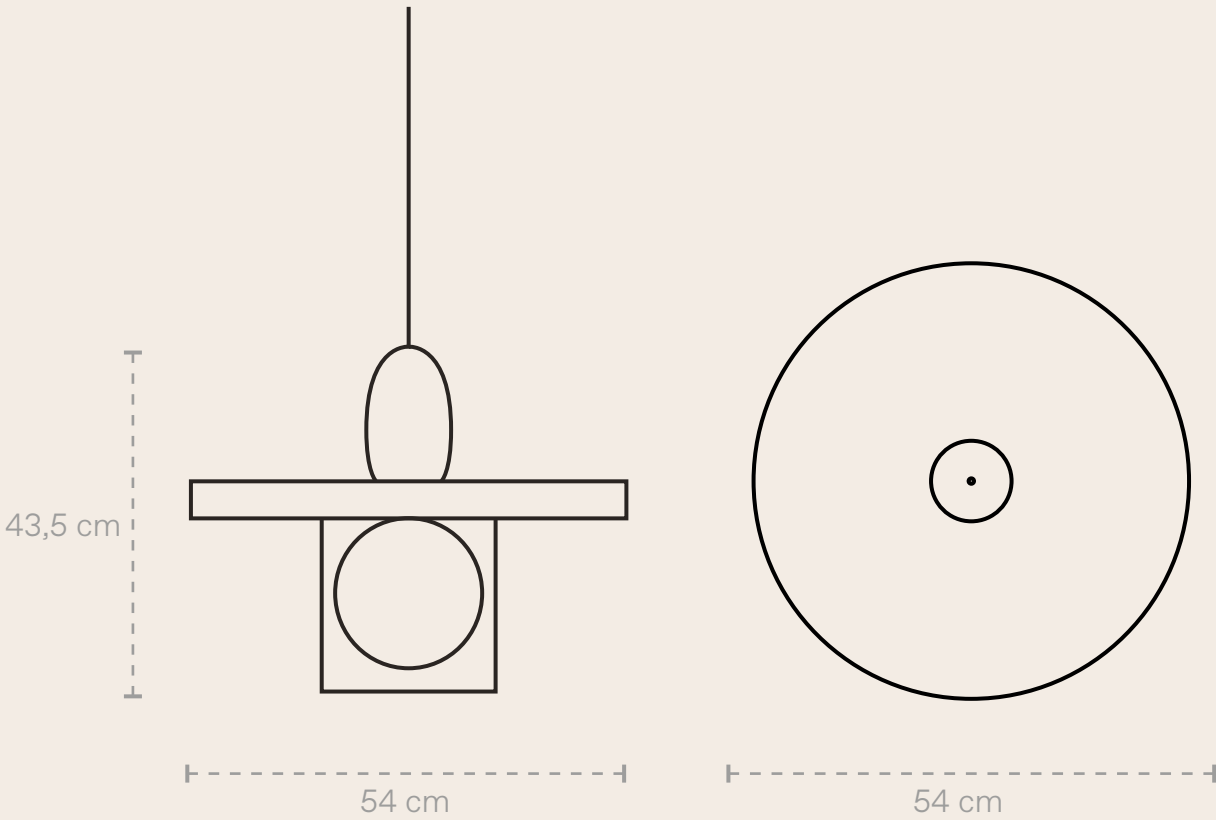

EIRENE

sphaær

Eirene is the custodian of peace and harmony. She symbolises nature’s cycle, which brings all forces into balance in circulating phases. Eirene personifies harmony, accord, and the prosperity that sprouts from peace. Just as the much-anticipated spring heralds the world’s awakening, so does Eirene bring blooming possibilities into our lives.

The CALLIOPE collection of suspended lamps transports us to a realm where the transient fuses with eternity – where ephemerality intersects with all that is yet to unfold. Much like the timelessness of light itself, CALLIOPE encapsulates infinite moments within its existence. The collection harmonizes contrasting, asymmetric forms. It presents a different perspective from every angle, thus embodying delicate equilibrium.

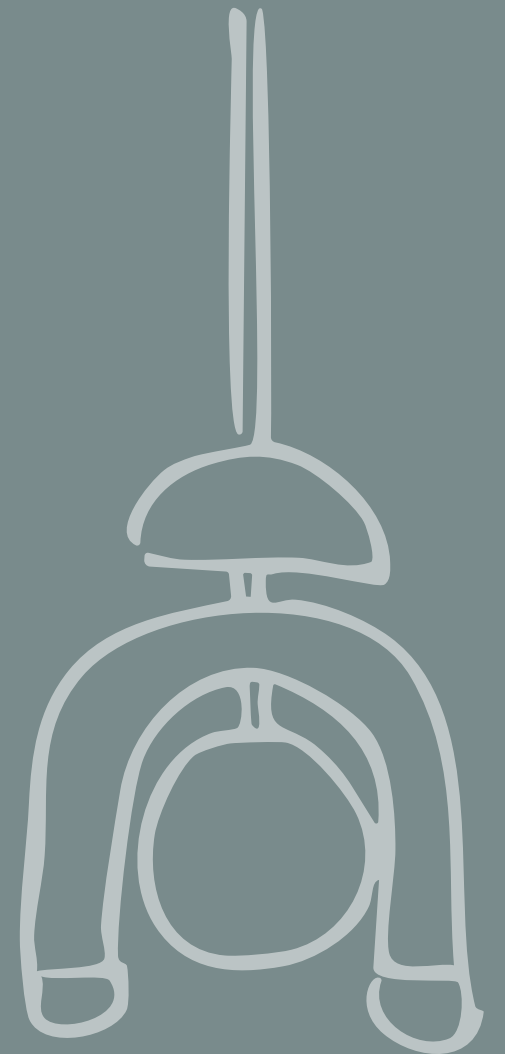

AGLAEA

OURANIA

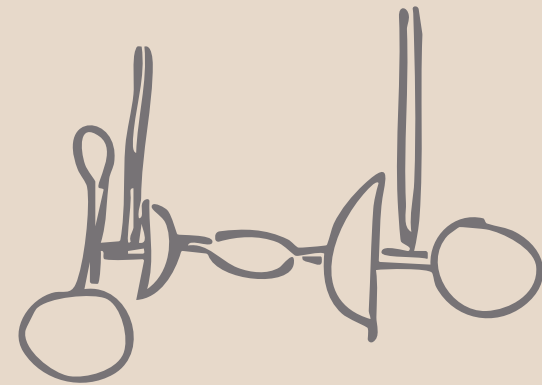

HECATE

CALLIOPE

Aglaea, a lofty sculpture yet as blithe as if she were a mere constellation of air molecules, holds within her a unique purpose. Just like in mythology where she once endowed wedding guests with unparalleled beauty and joy, she now imbues every room around her with an elegant, rosy-golden luminescence. Because grace is, indeed, the crowning adornment of beauty.

LENI PIËCH + BADE EROL

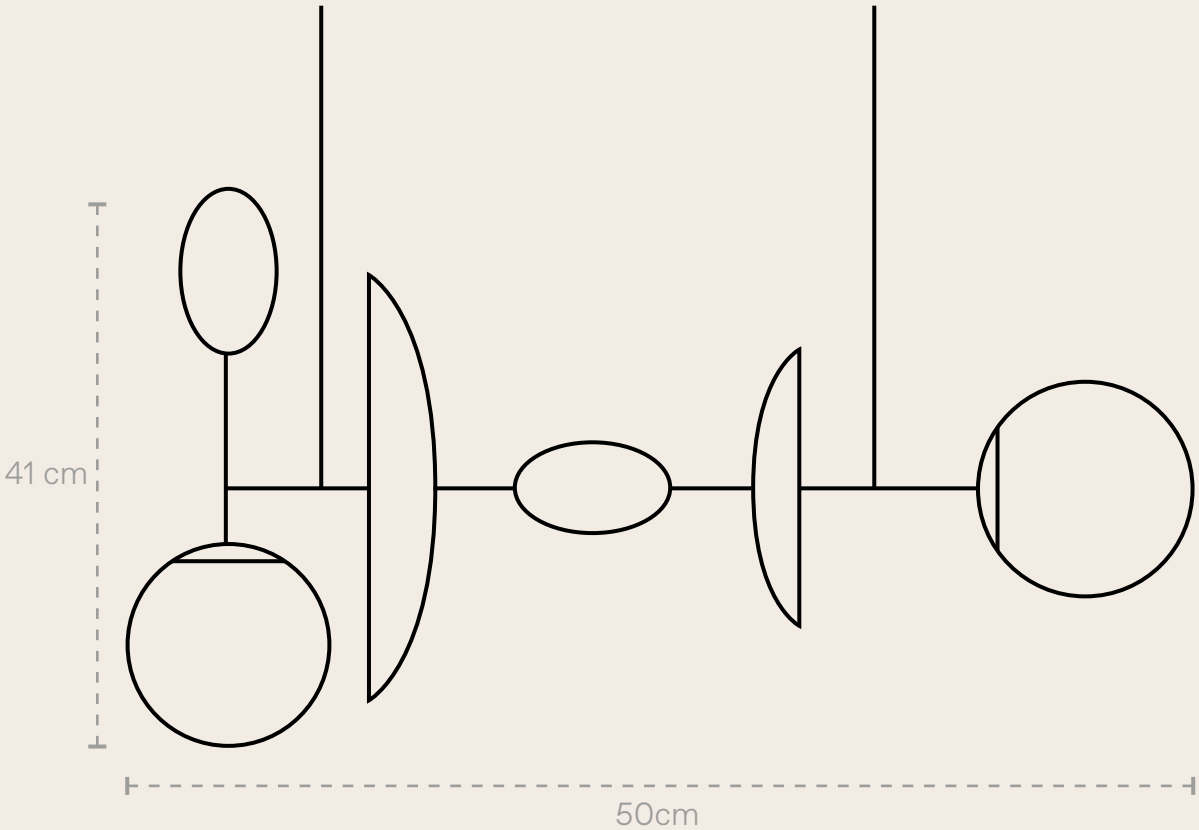

AGLAEAE

AGLAEA

Aglaea, one of the three Graces, seamlessly integrates herself into the elegant repertoire of the CALLIOPE personas. Her vigour resides in the splendour of glowing youthfulness. With an inquisitive sense, she draws her inspiration from the world that envelops her. To observers, Aglaea, artfully forged from elements of coloured glass, natural ceramic, and iron, assumes the form of an ever-changing, capricious figure that constantly transforms from every angle of observation.

Those who seek to comprehend the mysteries of the cosmos beseech Ourania for her wisdom. Just as the universe's secret unfurls within nocturnal abyss, she, one of the Muses, ushers us into the celestial realm and the stars. Ourania lifts her gaze to decipher the stellar narrative. From her fountainhead, we extract knowledge and inspiration.

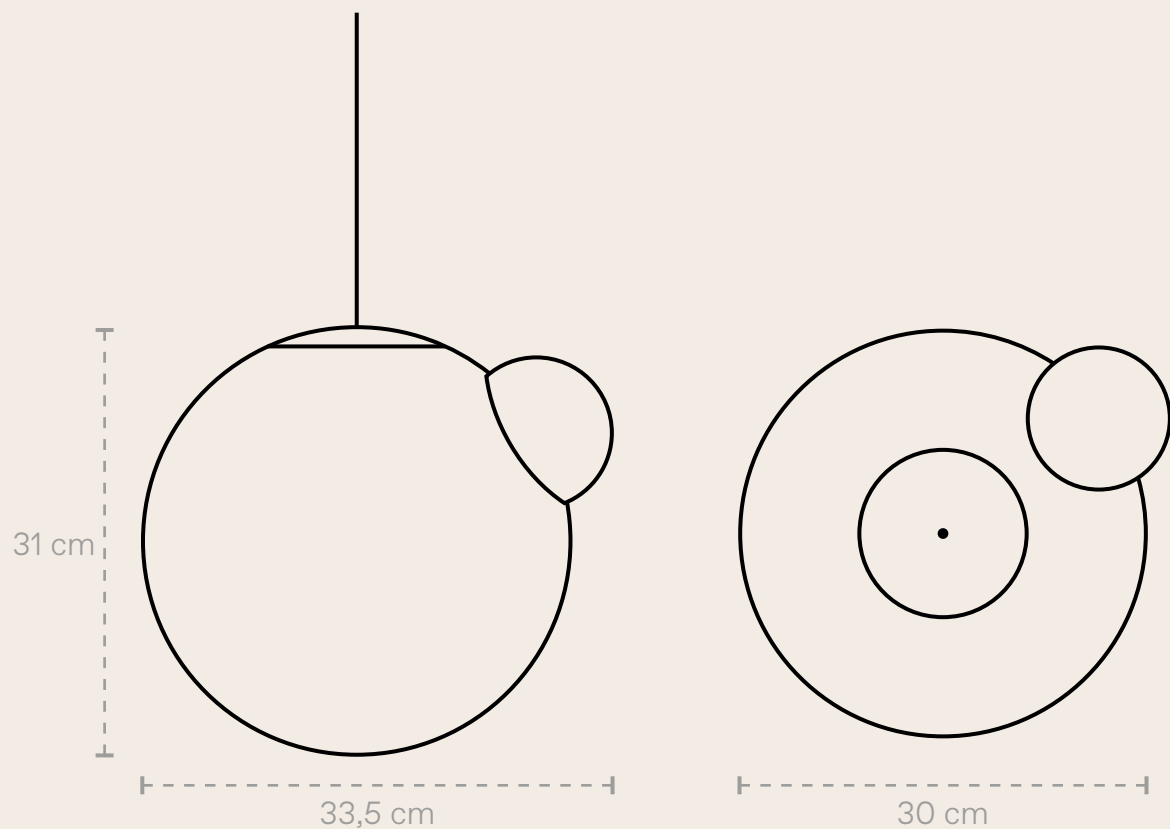

LENI PIËCH + BADE EROL

OURANIA

OURANIA

Ourania is cradled by the heavens like ceramic by glass, like a child by parents. Ceaselessly, she aspires to the stars — unburdened, unwavering. The light refracts through her rose-hued glass form, bathing her surroundings in comforting serenity. Ourania encompasses both mother and father, light and shadow — intimacy and aloofness. They all are linked by the gaze that ascends to the sky.

COFFEETABLE

The SOM Coffee Table is a representation of connection and dialogue, designed to embody the essence of exchange. Its name, “SOM,” reflects the interplay of identical forms that are diagonally offset, creating a subtle tension between symmetry and contrast. The design highlights the idea of sitting opposite one another, fostering interaction, collaboration, and the blending of perspectives.
